

ACM Medical Laboratory Receives Partner of the Year Award from Trillium Health

Rochester-based Trillium Health Honors ACM Medical Laboratory for More than 25 Years of Support

Rochester, NY, October 30, 2014 – ACM Medical Laboratory, Inc., a division of Rochester Regional Health System, is pleased to announce that it is the recipient of the 2014 Community Partner Award from Trillium Health. ACM has partnered with Trillium Health for 25 years, supporting its ongoing goal to provide integrated, personalized primary and specialty medical care to people from diverse communities.

ACM received the Community Partner Award in October at a reception celebrating 25 years of outstanding services provided by Trillium Health co-founder Dr. William Valenti, who also serves as the company's senior vice president for organizational advancement and staff physician. Upon accepting the award, Angela Panzarella, president of ACM, presented a donation in honor of Dr. Valenti and the many achievements he continues to make.

"Throughout the past 25 years, it has been a privilege for ACM to support Trillium Health as it continues to evolve and thrive in the Rochester community and beyond," commented Panzarella. "Dr. Valenti is an industry icon, and receiving this award underscores ACM's dedication to keeping pace with his team's efforts as they further progress toward strategic goals and embark on new clinical initiatives."

ACM provides diagnostic testing services for the medical providers at Trillium Health and the more than four thousand patients they serve across this region. ACM has a patient service center adjacent to Trillium Health's main offices at Monroe Square in Rochester where patients are seen for simple blood analysis, specialty lab work for long-term HIV care and everything in between.

About ACM Medical Laboratory

ACM Medical Laboratory, Inc., a division of Rochester Regional Health System, is a full-service clinical and pathology laboratory providing high-quality diagnostic testing services for physicians, hospitals, employers, other health care providers and the patients they serve. The organization has 40 years of experience conducting laboratory testing and operates in more than 60 countries around the globe.
